The Caring Touch Certified Massage Therapy with Sandra McKee

What makes the Caring Touch different from other massage locations - certified massage therapist and owner Sandra McKee has created a more personal quaint relaxation space without all the hustle and bustle of other spas & salons. Sandra offers clients a Therapeutic Massage that helps with life stresses, earlier life traumas, aches and pains, chakra energy balancing for relaxing your body, mind, and spirit. Sandra has graduated from a 2 year certification program in energy medicine as well as an assistant in the certification program for 2 years.

What is energy medicine? Energy medicine works with our energy field that extends from our body 3 to 4 feet.

The energy field along with the chakra centers can hold distortions and depletions. It has been scientifically proven that with working with these distortions & depletions we can revitalize the cells tissues and organs for your body to naturally do what it was created to do - heal itself.

Sandra takes great pride in educating herself in numerous modalities to be able to understand how the human body works. Sandra is also certified in major medical massage therapy & reflexology. Sandra also has continuing education classes in Hot Stones, Qigong Polarity Therapy, Cranial Sacral, and the Chakras. Sandra is also passionate about natural supplements.

The Caring Touch carries specific natural products that have pharmaceutical grade quality and high quality ingredients. We also feature a link for great products on our website. If our location is convenient for you and you need specific supplements we will special order for you. The Caring Touch takes pride in offering quality care and services. We look forward to serving you in the future.

Sincerely,
Sandra McKee & Staff
